

MILSPEC MP50 HYDAKEY™

All Plastic - Covert Handcuff Key (with attachable snap rivet design)

MP50 HYDAKEY come with standard MR62 (short rivets)

to fit most clothing thickness up to 1/16th inch

MR125 (Long Rivet) can attach up to 1/8th inch thickness -sold separately.

Instructions to attach to clothing:

*Push Male Rivet through button hole or hole in clothing and into **smooth side** of key receptor hole.
(keeping key hidden on the underside of clothing)*

Can be attached through shirt, socks, underwear or any piece of 1/16" thick clothing

Use Tall Male Rivet for thick items such as tactical pouches, sweaters, etc, -up to 1/8" thick.

HydaKey can also be attached to standard small diameter key chain or lanyards for every day use.

Insert rivet this side of Key Only

****Important Notice: HydaKey is only to be used by Law Enforcement, Military or Security Professionals in accordance with all local, state & federal law or as a tool to counter illegal detainment. Improper use to evade arrest by civilians is illegal and strongly discouraged. Milspec Plastics assumes no responsibility for the ability to use or misuse of this product****
